Here is a bull that will flat put the performance into your herd. When you combine his amazing 116 weaning weight ratio with his growth EPDs in the top 4% WW and 5% YW he can pay for himself in a hurry. Check out the fertility that he offers with his top 28% HPG. His true forte just might be the tremendous set of feeders that he can put out with his top 8% MB, 6% CW and 14% REA EPDs.

Time is starting to be of the essence to get a bull bought today. This guy can do loads of good for your bottom line with his exceptional growth EPDs that rank in the top 12% for both WW and YW. He knocks it out of the park on carcass traits with top 2% MB, 10% CW and 13% REA, so you might want to retain interest on his steers. Imagine the fertile and easy calving daughters he can produce with his top 35% HPG and 18% CEM.
