Take a look at the outstanding performance spread on this lady. She has one of the biggest spreads in the entire sale going from a super low 86 birth to 107 weaning and 105 yearling. That right there is the very definition of curve bending genetics. With her terrific calving ease EPDs, she allows you multiple breeding options.

Lot 10 - Cow calved and lost calf in flood - sells open guaranteed to breed

Lot 16 - Cow calved - Heifer Calf - 5/8/17 - 74 lb BW - sired by Brown Goldmine, Brown Prime Cut or Loosli Right Direction - will need to DNA type

WOW! Check out that HerdBuilder Index that ranks completely off of the charts. With a number like that I would pray for females out of this girl, or better yet, you might want to get her into an ET program and build an entire program around her. She gets it done on carcass as well with top 1% MB and 1% GridMaster. Don't miss out on this one.

Can you imagine how good the daughters can be out of this female? They should be low birth and filled with maternal, calving ease and fertility with her top 27% BW, 3% MK, 28% CEM and 2% HPG. When you study her pedigree you will also find that she is an outcross to many sire lines out there and offers multiple mating options.
